# Novelties in Flower Seeds for 1900

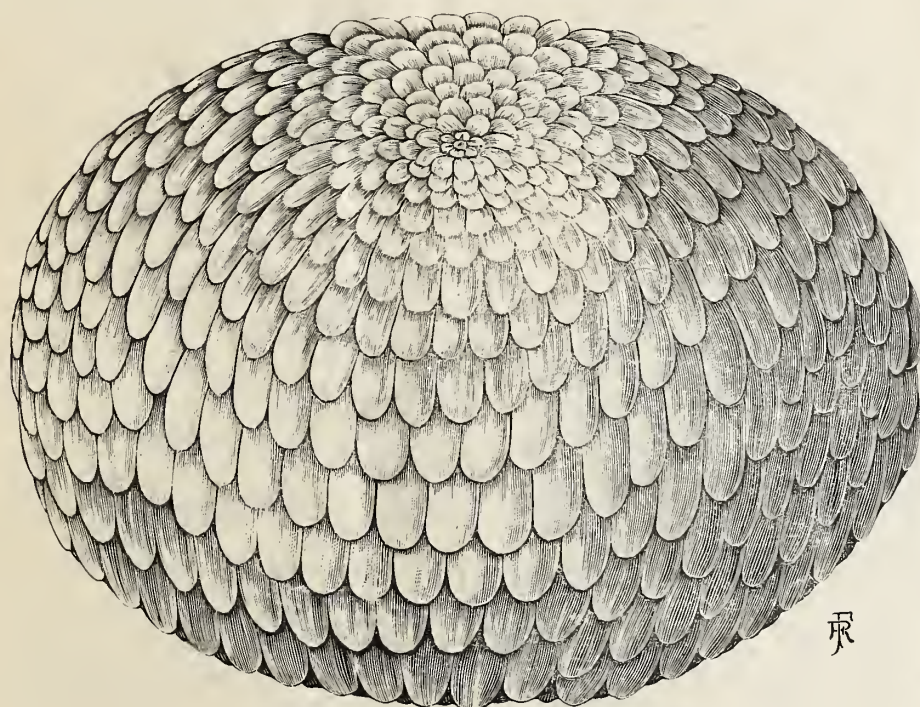

Grown by

# Frederick Roemer

Seed Grower

QUEDLINBURG, GERMANY.

## Giant Victoria Aster, Snow White.

Giant Victoria Aster, Snow white  
natural size.  
(Electros 5 s. each.)

centre of the flower.

Quite a new and distinct class of Asters of high perfection.

The plants are strong luxurious growers, attaining a height of about 2 feet, branching out freely into well-formed bushes of a pyramidal habit, each plant bearing 15 to 20 magnificent very large flowers that are  $4\frac{1}{2}$  to  $5\frac{1}{2}$  inches in diameter, very good double. The broad petals are beautifully imbricated, sitting tile fashion one on the top of the other to the

Really a grand variety for Show beds and for Exhibition purposes.

Per 100 pkts. 42 s., per 10 pkts. 5 s., per pkt. 8 d.

## Christmas Tree Aster (Roemer-Heinemann)

White, Rose, Rose and white,  
Carmine, Light blue, Light blue  
and white.

Christmas Tree Aster, taken by a photograph.  
(Electros 6 s. each.)

Each variety separate per 100 pkts. 36 s., per 10 pkts. 4 s., per pkt. 6 d.  
Mixed colours per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

## Ostrich-Feather Aster,

White changing to rose, Rose, Crimson, Reddish lilac.

Ostrich-Feather Aster, natural size, taken by a photograph.  
(Electros 5 s. each.)

I am very pleased to offer 4 distinct colours of this beautiful class of Asters of which the white variety has been offered two years ago. The plants grows 15 to 18 inches high and are of a strong luxurious branching habit. The flowers measuring 4 to 5 inches in diameter, borne on long stems. The petals are long wavy and so twisted as to give an extreme Comet effect. This strain of Asters is of real value both for Garden decoration and for cutting.

Each variety separate per 100 pkts. 40 s.,  
per 10 pkts. 4 s. 6 d., per pkt. 6 d.  
Mixed colours per 100 pkts. 30 s., per  
10 pkts. 3 s. 6 d., per pkt. 5 d.

## EXTRA CHOICE FLOWER SEEDS

GROWN BY

FREDERICK ROEMER

SEED GROWER

QUEDLINBURG, GERMANY.

CABLE-ADDRESS: ROEMER, QUEDLINBURG.

Not bound by the Prices in this „Special Offer“ after December 15<sup>th</sup>. 1899 and as far as unsold.

## Roemer's Superb Prize Pansies.

For many years past I have given very particular attention in cultivating Pansies, and the seeds now offered is the produce of the very finest kinds. In habit the plants are compact and very free-blooming the individual flowers being of large size, circular and good substance. First Prizes awarded wherever my Collection exhibited. This strain is undoubtedly the finest that has yet been offered.

	Per lb. s.	Per oz s. d.		Per lb. s.	Per oz s. d.
2704 Aurikel colours, splendid mixed . . . . .	20	1 8	2751 Lord Beaconsfield, deep purple violet shading of in the top petals, to a white hue . . . . .	24	1 10
2705 Baron de Rothschild, fine Fancy varieties .	36	2 8	2753 Marmorata (Pelargoniflora), marbled, varieties splendid mixed, odd and striking . . . . .	20	1 8
2708 Blackish brown shaded gold bronze . . . . .	24	1 10	2756 Odier or Prize Blotched. Highly improved strain of many different very rich and glossy colours, each petal is marked with a large dark blotch and clearly defined margin . . . . .	120	8 0
2709 Black Prince. The rich glossy black has a peculiarly soft velvety appearance . . . . .	24	1 10	2760 Peacock, new . . . . .	32	2 6
2714 Bright purple (Purple Mantle), a very fine and rich crimson-violet colour . . . . .	30	2 6	2761 Président Carnot, flowers of a whitish colour each petal is marked with a violet blotch . . . . .	140	10 0
2715 Bronze colours, peculiar colours in bronze fine mixed	26	1 10	2762 Prince Bismarck, golden bronze colour, very fine	24	1 10
2716 Brown red (Meteor), fine for bedding . . .	24	1 10	2765 Purple margined white (Silver Seam) very bright and effective . . . . .	26	2 0
2718 Bugnot. A new french variety of the five spotted or Odier section, with very large and richly coloured flowers. Highly improved Strain . . .	140	10 0	2766 Quadricolor (Rainbow), very beautiful, of reddish steel blue colour, with white and pink edge, marked with a golden and pink face . . . . .	26	2 0
2720 Cardinal. The colour of the flower would be properly described as a Brownish scarlet. It represents the brightest colour in Pansies grown until now. The three lower petals being marked with a large dark blotch . . . . .	160	12 0	2768 Rosy lilac, a quiet and pleasing colour . .	26	2 0
2722 Coquette de Poissy, of a mauve colour . . .	36	2 8	2770 Rubra (Red Riding Hood). Shades of brilliant red, but small flowers . . . . .	20	1 8
2724 Dark blue or Black-blue, intensely rich, fine for bedding . . . . .	20	1 8	2772 Snow Queen, beautiful satiny white, centre slightly tinged with yellow, very floriferous, but small flowers	20	1 8
2726 „ mahogany with white margin (Silver edged). The darkest mahogany, with a clear cut edge of pure white, very effective . . . . .	26	2 0	2776 Victoria. A very distinct and quite a new variety it is of a bright wine or blood red colour. Quite different from Rubra or Red Riding Hood Pansy. The flowers are of good size and nobel form . .	120	8 0
2730 „ „ with yellow margin (Gold edged)	24	1 10	2777 Violet blue, fine for bedding . . . . .	20	1 8
2731 Doctor Faust or King of the Blacks, black as jet, fine for bedding . . . . .	24	1 10	2778 Violet bordered white (Fairy Queen) very effective . . . . .	26	2 0
2734 Emperor Frederick. The ground colour is a dark royal purple with red and golden yellow edge, marked with a gold bronze face . . . . .	24	1 10	2780 White, with large violet eyes . . . . .	20	1 8
2736 Emperor William, dark ultramarine, valu- able bedding variety . . . . .	20	1 8	2782 Fancy varieties, splendid mixed, saved from named flowers . . . . .	36	2 8
2738 Fire King, beautiful variety . . . . .	30	2 6	2784 Show Varieties, splendid mixed, saved from named flowers . . . . .	26	2 0
2739 Freya, new, dark maroon, with white edge	36	2 8	2786 Show French, large flowered spotted, but slender habit . . . . .	24	1 10
2740 Golden Queen, beautiful golden yellow without spots, very floriferous, but small flowers . . .	26	2 0	2788 All varieties finest mixed . . . . .	20	1 8
2744 Golden yellow with brown spots, fine for bedding	24	1 10

	s.	s. d.		s.	s. d.
2824 <b>Giant Snow Queen.</b> Satiny white, centre slightly tinged with yellow . . . . .	56	4 0	2836 <b>Giant Five spotted.</b> New. The <b>Ne plus ultra</b> of all varieties. This my own strain, is a great improvement in size and form on the well known Odier or Prize Blotched, the ground colours are of all shades and <b>each petal</b> distinctly marked with a large dark blotch; this variety represents the highest perfection in Pansies.		
2826 " <b>Striped.</b> The Perfection of all striped varieties, which promises to become very popular. The Giant Striped differs from the Improved Striped owing to its vigorous and robust growth, as well as the enormous size of the blooms . . . . .	80	6 0	When visiting my seed grounds, during the past seasons, many of my customers seeing the flowers, were surprised by the rich and brilliant shades, as well as by the enormous size and good substance	330	24 0
2828 " <b>Violet blue,</b> fine dark variety . . . . .	70	5 0	2840 " <b>"Canarybird".</b> A giant five spotted variety on yellow ground. The ground colour is a bright golden yellow, each petal marked with a large dark blotch. A very fine bedding variety. Comes nearly true from seed 1000 seeds 3 s. 6 d.	—	30 0
2830 " <b>White,</b> white flowers with large deep violet spots on each of the lower petals . . . . .	70	5 0	2842 " <b>all varieties splendid mixed</b> . . . . .	70	5 0
2832 " <b>Fancy</b> (Improved Cassier). The ground colours are of all shades and the three lower petals are distinctly marked with a large blotch, splendid rich colours mixed, very attractive . . . . .	160	12 0	2844 " <b>Assortment of 12 varieties</b> 1 s. 6 d.		
2834 " <b>Fancy Hortense - rose.</b> A distinct colour in Fancy Pansies . . . . .	—	12 0	2846 " " 6 " 0 s. 9 d.		
2847 <b>Carefully saved only from named Exhibition flowers of all varieties, splendid mixed.</b> A magnificent selection, remarkable for great and rich colouring of the flowers and the vigorous habit of the plants. Highly recommended. Per 10,000 seeds 36 s., 1000 seeds 4 s.					

## Stocks.

The Stocks I supply are of unsurpassable quality (**best pot raised seed**). I do not cultivate any, that are not extra double and pure and beautiful in colour. See Reports of: „The Gardeners Chronicle“ August 9<sup>th</sup> 1884 p. 178 and October 3<sup>d</sup> 1885 p. 443.

The Assortments contain the most showy varieties and 100 Seeds of each.

**Gaillardia grandiflora sulphurea oculata**  
(Electros 4 s. each).

## **Gaillardia grandiflora sulphurea oculata.**

The flowers of this new variety of perennial Gaillardias are of medium size, good substance, well set upon long thin stalks and is very chaste and refined. The colour is a pale sulphur, having a well defined bright maroon eye, giving it a distinctiveness quite unique in this family. It is the most striking of all Gaillardias whether as a cut flower or in a border.

About 50% comes true from seed. It is a fact to be mentioned if seeds are sown early it may be treated to be an annual and will commence flowering by the end of July and last until killed by frost.

Per 100 pkts. 42 s., per 10 pkts. 5 s., per pkt. 8 d.

**Gloxinia hybrida grandiflora Princess Henry**  
(Electros 4 s. each).

## **Gloxinia hybrida grandiflora Princess Henry.**

This name I have given to a new and absolutely distinct colour in Gloxinias. The upright flowers are of good size and substance.

The under part of the throat is of a whitish colour finely sprinkled with carmine rose spots that darkens off to carmine and on the orifice passing into a brilliant purplish carmine with a beautiful velvety reflex, margined with a broad carmine edge on the outer petals.

Comes quite true from seed.

Per 100 pkts. 50 s., per 10 pkts. 6 s.,  
per pkt. 9 d.

## **Helianthus annuus fl. pl. foliis variegatis.**

The **double flowering** variety of the *Helianthus annuus* Goldleaf offered two years ago. The plants are of luxurious but stout growth and reaches a height of 7 feet. The large leaves are variegated with most distinct markings the colours varying from golden yellow to dark green; some leaves are regularly striped and blotched, in some the colour approaches a clear golden yellow. The flowers of good size measuring 6 to 8 inches across are **very good double** and of a bright golden yellow colour. By the regularly branching and vigorous habit this novelty will proof to be a most useful ornamental, either if planted singly or in groups.

Per 100 pkts. 42 s., per 10 pkts. 5 s., per pkt. 8 d.

## **Roemer's Superb Giant Prize Pansy Quadricolor (Rainbow).**

After careful selections and trials for several years, I can offer the charming combination of colours named in the large flowering section „Quadricolor or Rainbow“ in the Giant Pansies. The flowers of a noble form measure up to 3 inches in diameter, the colour of the two upper petals is a wonderful reddish steel blue with white edge sometimes with pink and white edge, the ground colour of the lower petals is yellow marbled with red and steel blue and margined with white. A very effective variety. Per 100 pkts. 45 s., per 10 pkts. 5 s., per pkt. 8 d.

## **Roemer's Superb Giant Prize Pansy „Masterpiece“ (Roemer-Heinemann).**

Roemer's Superb Price Pansy „Masterpiece“, natural size.  
(Electros 5 s. each.)

This strain represents really the highest perfection in the Giant Five spotted Pansies and for this reason I have named it „Masterpiece“.

The growth and general habit of the plants is strong, bushy but compact, showing the longest time of all Pansies a healthy appearance when in summer warm and dry weather sets in. The enormous large flowers are borne well above the foliage on strong stems, posses greatest substance, are perfectly round and contains the richest combination of colours, that have ever been offered in a five spotted strain of Pansies.

Each petal is distinctly marked with a very large dark blotch and most of the flowers are margined with a light, white or yellow edge.

Per 100 pkts. 45 s., per 10 pkts. 5 s., per pkt. 8 d.

# Some Valuable Novelties of Recent Years.

## Dwarf Comet Perfection Aster,

Snow white.

Quite a new race of **early flowering dwarf Asters**. In habit the plants are similar to those of the Dwarf Chrysanthemum Aster, about 8 to 10 inches high, the branches are upright and make a dense compact bush, excellent for pot culture as well as for bedding. The flowers are of good size, 3 to 4 inches across, and resemble a good Comet Aster in form.

Per lb 60 s., per oz 4 s. 6 d. Nett, per 100 pkts. 20 s., per 10 pkts. 2 s. 6 d., per pkt. 4 d.

## Hohenzollern Aster,

White.

The flowers are borne on very long stems about 16 to 18 inches in length, and are of a pure white colour of extra ordinary size, measure 6 to 7 inches in diameter. The petals are long, curled and twisted in such a manner as a good Comet Aster.

The plants are of a bushy habit. A very good variety for Show beds and for Exhibition purposes.

Per oz 6 s. Nett, per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

## Begonia semperflorens Zulu King.

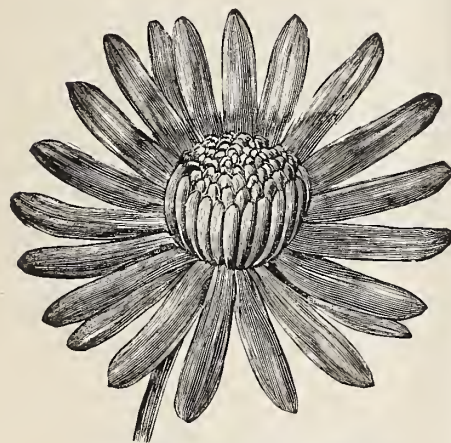

The darkest coloured Everblooming Begonia, leaves in full sunny position nearly black, the flowers of a bright red colour, will it proof to be a first class variety for Market growers etc.

The seeds that I offer has been gathered from cuttings, thas has been carefully fecundated with pollem taken from seedlings. By this reason I can expect that it will proof to come true from seed.

Per 100 pkts. 36 s., per 10 pkts. 4 s., per pkt. 6 d.

## Bidens atrosanguinea superba (Roemer).

(Dahlia Zimapani superba.)

**Bidens atrosanguinea superba.**  
(Electros 2 s. 6 d. each).

The plant of this novelty is of a dwarf growth like a Miniature Dahlia, being only 8 to 12 inches in height; at the same time it is very vigorous and free flowering, from June until killed by frost it sends up numerous wieri stems of about 12 to 15 inches in length each bearing one flower. The flowers are daisy like, about 1½ inches in diameter, of the deepest velvety dark blood red, appearing nearly black and are born high above the foliage. The petals of the flowers of my novelty are long, but sometimes very small, others are deeply cut or fringed and sometimes they are crested and curled, thus giving the flowers a loose but rather graceful and noble appearance and differs by these flimsy flowers from the old variety.

Per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

## Cineraria hybrida grandiflora, hortense rose.

A new and attractive delicate colour in large flowering Cinerarias, that is worth to give it a trial.

Per 1/16 oz 12 s. Nett, per 100 pkts 30 s., per 10 pkts. 3 s. 6 d. per pkt. 5 d.

## Coleus macrophyllus nanus (Roemer).

A dwarf large leaved variety in Coleus. The plant does not grow over 6 inches heigh. The leaves are very large and broad, thick and leathery like and almost of a blackish red colour marbled and flaked with red.

1000 seeds 4 s. Nett, per 100 pkts. 36 s., per 10 pkts. 4 s., per pkt. 6 d.

### **Godetia Duke of York compacta (Roemer).**

This new variety is of a dwarf, stout and regular branching habit, similar to those of Lady Satin Rose, but the large flowers are of a bright scarlet carmine colour, very effective.

Per lb 36 s., per oz 3 s. Nett, per 100 pkts. 24 s., per 10 pkts. 3 s., per pkt. 4 d.

### **Godetia carminea aurea compacta (Roemer).**

Of the same regular branching dwarf habit, but flowers are of a rosy crimson colour edged with bright pale yellow.

Per lb 36 s., per oz 3 s. Nett, per 100 pkts. 24 s., per 10 pkts. 3 s., per pkt. 4 d.

### **Helianthus cucumerifolius „Orion“ (Roemer).**

Similar in growth to Helianthus cucumerifolius Stella, but differs from it in having twisted or fluted petals, similar to those of the Cactus Dahlias, that gives it a remarkable, graceful appearance. A very useful plant for large groups and beds, but also a first class plant, where cut flowers are in demand.

Per oz 4 s. 6 d. Nett, per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

### **Roemer's Superb Giant Prize Pansy Bronze colours (Roemer).**

This strain includes the different shades of light and dark bronze, that makes the large flowering section so desirable. But the flowers of this novelty are up to 3 inches across of good substance and noble form, the three lower petals are marked with distinct blotches.

Per oz 12 s. Nett, per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

### **Roemer's Superb Giant Prize Pansy Prince Bismarck (Roemer).**

By this novelty I am able to offer this distinct colour in the Giant Pansies. The flowers of a noble form, measure up to 3 inches in diameter and are of a rich yellowish-bronze colour. The well defined eyes, of good size are of a dark brown colour.

Per oz 18 s. Nett, per 100 pkts. 42 s., per 10 pkts. 5 s., per pkt. 8 d.

### **Tagetes patula fl. pl. Sulphur Liliput (Roemer).**

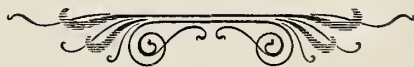

The third distinct variety in this class of very dwarf or Liliput Marigold. Growing only 4 to 5 inches in high by a diameter up to 6 inches forming neat compact plants that are covered with very small but perfectly double flowers of a bright sulphur yellow colour. A valuable variety for carpet beddings, edgings, masses, but as well very useful for growing in pots.

Per oz 4 s. 6 d. Nett, per 100 pkts. 30 s., per 10 pkts. 3 s. 6 d., per pkt. 5 d.

### **Trifolium suaveolens foliis aureis (Roemer).**

Sweet scented Clover with golden yellow leaves. The plants grows from 12 to 18 inches in high forming close bushes, the leaves are of a bright yellow colour, the small flowers of a lilac-red colour and arises of it a very sweet perfume.

Per lb 30 s., per oz 2 s. 6 d. Nett, per 100 pkts. 24 s., per 10 pkts. 3 s., per pkt. 4 d.

A discount of 33 $\frac{1}{3}$  per cent will be allowed off the prices in this list except where otherwise marked, if you favour these novelties with a place in your Catalogues.
